October 22, 2014

Subject: Project No. 156-170

F.A.P. No. 0001(279)

Intersection Improvements U.S. Route 1 and Route 122 in the Town of West Haven.

**NOTICE TO CONTRACTORS:**

This is to notify all concerned and especially the prospective bidders that the bid opening for the subject project is still scheduled for October 29, 2014 at 2:00 P.M. in the Conference Room of the Department of Transportation Administration Building, 2800 Berlin Turnpike, Newington, Connecticut.

**Addendum No. 1** is attached and can also be obtained on the Statewide Contracting Portal at [http://www.biznet.ct.gov/scp\\_search/BidResults.aspx?groupid=64](http://www.biznet.ct.gov/scp_search/BidResults.aspx?groupid=64)

This addendum is necessary to add a new special provision, revise special provisions, delete special provisions, add a permit, revise contract items, delete contract items, add a new plan sheet, revise plan sheets and revise federal wage rates.

Bid Proposal Forms (0156-0170.EBS file and amendment file 0156-0170.00# if applicable) are available for those bidders that have received approval from the Department to bid on the subject project.

**Pre-Bid Questions and Answers:** Questions pertaining to DOT advertised construction projects must be presented through the CTDOT Pre-Bid Q and A Website. The Department cannot guarantee that all questions will be answered prior to the bid date. **PLEASE NOTE - at 12:01 am, the day before the bid, the subject project(s) being bid will be removed from the Q and A Website, Projects Advertised Section, at which time questions can no longer be submitted through the Q and A Website. At this time, the Q and A for those projects will be considered final, unless otherwise stated and/or the bid is postponed to a future date and time to allow for further questions and answers to be posted.**

The Bid Proposal Form has been revised to reflect these changes.

There will be no change in the number of calendar days due to this Addendum.

The Federal Wage Rates dated July 25, 2014 are hereby deleted and replaced with the attached Federal Wage Rates dated October 17, 2014.

The foregoing is hereby made a part of the contract.

**NOTICE TO CONTRACTOR - ADVANCE UTILITY AND CONSTRUCTION WORK**

The Contractor is hereby notified that the Department has issued an Advance Utility Relocation authorization (Breakout Utility Project No. 156-179) to Southern Connecticut Gas Company and AT&T. Work will be performed by the gas, and telephone companies beginning in September 2014. The gas and telephone companies are authorized to perform the relocation of their respective utilities required for Project 156-170. Plans of the work proposed by the utilities are included in the contract plans for information only. Utility work shall be coordinated by the contractor with project work prior to project work proceeding.

In addition to the Advanced Utility work, the contractor is also hereby notified that the Department, through its Maintenance Division, will install a portion of the storm drainage system on U.S. Route 1 in the vicinity of Atwood Place. The extent of the storm drainage work to be constructed is shown on the contract plans as 'WORK DONE BY OTHERS'.

The Contractor shall coordinate with the utility companies to accommodate his schedule with all utility company schedules. No additional compensation shall be considered for schedule delays due to utility work.

Also, refer to "Section 1.07 - Legal Relations and Responsibility to the Public" in Form 816 and "Protection of Existing Utilities".

GENERAL

## **SECTION 1.06 - CONTROL OF MATERIALS**

### **Article 1.06.01 - Source of Supply and Quality**

Delete the last paragraph and replace with the following:

For the following items the Contractor shall submit a complete description of the item, together with seven (7) copies of shop drawings, cuts and other descriptive literature which completely illustrates such items presented for formal approval. Such approval shall not change the requirements for a certified test report, materials certificate ~~and certificate of compliance~~ as may be called for.

Floodlight and Stanchion

Receptacles

Conductors

Connectors

Conduit

Service Items

Handholes

Precast Foundations

Required catalog cuts for all items listed above shall be submitted in one package at the same time. All approvals or disapprovals and comments will be returned in one package.

**Article 1.06.01 - Source of Supply and Quality:**

Add the following:

**Traffic Signal Items:**

For the following traffic signal items the contractor shall submit a complete description of the item, working drawings, catalog cuts and other descriptive literature which completely illustrates such items presented for formal approval. Such approval shall not change the requirements for a certified test report and materials certificate as may be called for. All shop drawings shall be submitted at one time, unless otherwise approved by the engineer.

GENERAL

## **SECTION 1.08 - PROSECUTION AND PROGRESS**

### **Article 1.08.04 - Limitation of Operations - Add the following:**

#### **TIME RESTRICTIONS**

In order to provide for traffic operations as outlined in the Special Provision "Maintenance and Protection of Traffic," the Contractor will not be permitted to perform any work which will interfere with the described traffic operations on all project roadways as follows:

#### **ROUTES 1 AND 122**

The contractor will not be allowed to perform any work that interferes with existing traffic operations on the following State observed Legal Holidays:

Memorial Day\*  
Independence Day\*  
Labor Day\*

A Holiday marked with an \* also designates the following restrictions:

On the day before and the day after any of the above Legal Holidays.

On the Friday, Saturday and Sunday immediately preceding any of the above Holidays celebrated on a Monday.

On the Saturday, Sunday and Monday immediately following any of the above Holidays celebrated on a Friday.

\*\* From 6:00 a.m. the Wednesday before the Holiday to 8:00 p.m. the Monday after the Holiday.

\*\*\* From 6:00 a.m. the Thursday before the Holiday to 8:00 p.m. the Monday after the Holiday.

The contractor shall not work on days in January and May that the University of New Haven has graduation ceremonies.

During staged construction existing traffic operations will be considered to be as shown on the maintenance and protection of traffic plans contained in the contract plans.

~~The Contractor will not be allowed to work on any part of the site between 9:00 p.m. and 6:00 a.m. on any day.~~

GENERAL

**ROUTE 1**

Monday through Friday between 6:00 a.m . and 9:00 a.m. & between 3:00 p.m . and 6:00 p.m.  
Saturday and Sunday between 10:00 a.m. and 9:00 p.m.  
The day before Thanksgiving through January 8

During stage construction, existing traffic operations will be considered to be as shown on the Maintenance and Protection of Traffic Plans.

The Contractor will not be allowed to perform any work that will interfere with one lane of through traffic in each direction on Monday through Friday between 9:00 a.m. and 2:00 p.m. and between 6:00 p.m. and 9:00 p.m.

**ROUTE 122**

Monday through Friday between 6:00 a.m . and 9:00 a.m. & between 3:00 p.m . and 6:00 p.m.  
Saturday and Sunday between 10:00 a.m. and 9:00 p.m.  
The day before Thanksgiving through January 8

During stage construction, the existing number of lanes of traffic will be considered to be as shown on the Maintenance and Protection of Traffic Plans.

The Contractor will not be allowed to perform any work that will interfere with one lane of through traffic in each direction on Monday through Friday between 9:00 a.m. and 3:00 p.m. and between 6:00 p.m. and 9:00 p.m.

**CELLINI PLACE**

Monday through Friday between 6:00 a.m . and 9:00 a.m. & between 3:00 p.m . and 6:00 p.m.  
Saturday and Sunday between 10:00 a.m. and 9:00 p.m.  
The day before Thanksgiving through January 8

During stage construction, existing traffic operations will be considered to be as shown on the Maintenance and Protection of Traffic Plans contained in the contract plans.

**BROWER STREET AND ORANGE TERRACE**

Monday through Friday between 6:00 a.m. and 9:00 a.m. & between 3:00 p.m. and 6:00 p.m.

GENERAL

**ATWOOD PLACE, SMITH COURT AND ADMIRAL ST.**

Monday through Friday between 6:00 a.m . and 9:00 a.m . and between 3:00 p.m . and 6:00 p.m.

**Additional Lane Closure Restrictions**

It is anticipated that work on adjacent projects will be ongoing simultaneously with this project. The Contractor shall be aware of those projects and anticipate that coordination will be required to maintain proper traffic flow at all times on all project roadways, in a manner consistent with these specifications and acceptable to the Engineer.

The Contractor will not be allowed to perform any work that will interfere with traffic operations on a roadway when traffic operations are being restricted on that same roadway, unless there is at least a one mile clear area length where the entire roadway is open to traffic or the closures have been coordinated and are acceptable to the Engineer. The one mile clear area length shall be measured from the end of the first work area to the beginning of the signing pattern for the next work area.

*General Permit Registration Form for the Discharge of Stormwater and Dewatering*

Prior to completing this form, you **must** read the instructions for the subject general permit available at DEEP-WPED-INST-015.

This form must be filled out electronically before being printed.

You must submit the registration fee along with this form.

The **status of your registration** can be checked on the DEEP's ezFile Portal. Please note that DEEP will no longer mail certificates of registration.

**CPPU USE ONLY**

Program: Stormwater

**Part I: Registration Type**

Select the appropriate boxes identifying the registration type and registration deadline.

Registration Type		Registration Timeline	
<input type="checkbox"/>	<b>Re-registration</b> Existing Permit No. GSN _____	<b>On or before February 1, 2014*</b> *Note: Failure to renew a permit by this date will require submission of new registration. Re-registrants must only complete Parts I, II, III (except Question 8), IV - Question 1, VII and submit Attachment A.	
<input checked="" type="checkbox"/>	<b>New Registration</b> (Refer to Section 2 of the permit for definitions of Locally Exempt and Locally Approvable Projects)	<input type="checkbox"/> <b>Locally Approvable Projects</b> Size of soil disturbance:	<b>New registration - Sixty (60) days prior to the initiation of the construction activity for:</b> Sites with a total soil disturbance area of 5 or more acres
		<input checked="" type="checkbox"/> <b>Locally Exempt Projects</b> Size of soil disturbance: 10.5	<input checked="" type="checkbox"/> <b>New registration - Sixty (60) days prior to the initiation of the construction activity for:</b> Sites with a total disturbance area of one (1) to twenty (20) acres except those with discharges to impaired waters or tidal wetlands
			<input type="checkbox"/> <b>New registration - Ninety (90) days prior to the initiation of the construction activity for:</b> (i) Sites with a total soil disturbance area greater than twenty (20) acres, or (ii) Sites discharging to a tidal wetland (that is not fresh-tidal and is located within 500 feet), or (iii) Sites discharging to an impaired water listed in the "Impaired Waters Table for Construction Stormwater Discharges"

## Part II: Fee Information

1. New Registrations
  - a. Locally approvable projects (registration only):  
☐ \$625 [#1855]
  - b. Locally exempt projects (registration and Plan):  
☒ \$3,000 total soil disturbance area  $\geq$  one (1) and  $<$  twenty (20) acres. [#1856]  
☐ \$4,000 total soil disturbance  $\geq$  twenty (20) acres and  $<$  fifty (50) acres. [#1857]  
☐ \$5,000 total soil disturbance  $\geq$  fifty (50) acres. [#1858]
2. Re-Registrations  
☐ \$625 (sites previously registered prior to September 1, 2012) [#1853]  
☐ \$0 (sites previously registered between September 1, 2012 and the issuance date of this permit) [#1854]

*The fees for municipalities shall be half of those indicated in subsections 1.a., 1.b., and 2 above pursuant to section 22a-6(b) of the Connecticut General Statutes. State and Federal agencies shall pay the full fees specified in this subsection. The registration will not be processed without the fee. The fee shall be non-refundable and shall be paid by certified check or money order payable to the Department of Energy and Environmental Protection.*

## Part III: Registrant Information

- If a registrant is a corporation, limited liability company, limited partnership, limited liability partnership, or a statutory trust, it must be registered with the Secretary of the State. If applicable, the registrant's name shall be stated **exactly** as it is registered with the Secretary of the State. This information can be accessed at CONCORD.
- If a registrant is an individual, provide the legal name (include suffix) in the following format: First Name; Middle Initial; Last Name; Suffix (Jr, Sr., II, III, etc.).

### 1. Registrant /Client Name: Connecticut Department of Transportation

**State Agency** ↓

Secretary of the State business ID #:

Mailing Address: 140 Pond Lily Avenue

City/Town: New Haven

State: CT

Zip Code: 06525

Business Phone: 203-389-3100

## Part IV: Site Information

1. Site Name: Intersection Improvements at Route 1 & 122

Street Address or Description of Location: Intersection of Route 1 & 122

City/Town: West Haven

State: CT

Zip Code: 06516

Brief Description of construction activity: Realignment of intersection, drainage, water quality basin

Project Start Date: 4 / 2015

Anticipated Completion Date: 11 / 2016

(month/ yr)

(month/ yr)

Normal working hours: 7:30am to 4:00pm

2. MINING: Is the activity on the site in question part of mining operations (i.e. sand and gravel)? ☐ Yes ☒ No

If yes, mining is not authorized by this general permit. You must submit the Registration Form for the General Permit for the Discharge of Stormwater Associated with Industrial Activity.

3. COMBINED OR SANITARY SEWER: Does all of the stormwater from the proposed activity discharge to a combined or sanitary sewer (i.e. a sewage treatment plant)? ☐ Yes ☒ No

If yes, this activity is not regulated by this permit. Contact the Water Permitting & Enforcement Division at 860-424-3018.

4. INDIAN LANDS: Is or will the facility be located on federally recognized Indian lands ☐ Yes ☒ No

5. COASTAL BOUNDARY: Is the activity which is the subject of this registration located within the coastal boundary as delineated on DEEP approved coastal boundary maps ☒ Yes ☐ No

The coastal boundaries fall within the following towns: Branford, Bridgeport, Chester, Clinton, Darien, Deep River, East Haven, East Lyme, Essex, Fairfield, Greenwich, Groton (City and Town), Old Lyme, Guilford, Hamden, Ledyard, Lyme, Madison, Milford, Montville, New London, New Haven, North Haven, Norwalk, Norwich, Old Saybrook, Orange, Preston, Shelton, Stamford, Stonington (Borough and Town), Stratford, Waterford, West Haven, Westbrook and Westport.

If "yes", and this registration is for a new authorization or a modification of an existing authorization where the physical footprint of the subject activity is modified, you must provide documentation the DEEP Office of Long Island Sound Programs or the local governing authority has issued a coastal site plan approval or determined the project is exempt from coastal site plan review. Provide this documentation with your registration as Attachment B. See guidance in Appendix D of the general permit. Information on the coastal boundary is available at the local town hall or at [www.cteco.uconn.edu/map\\_catalog.asp](http://www.cteco.uconn.edu/map_catalog.asp). Additional DEEP Maps and Publications are available by contacting DEEP staff at 860-424-3555.

## Part IV: Site Information (continued)

### 6. ENDANGERED OR THREATENED SPECIES:

In order to be eligible to register for this General Permit, each registrant must perform a self-assessment, obtain a limited one-year determination, or obtain a safe-harbor determination regarding threatened and endangered species. This may include the need to develop and implement a mitigation plan. While each alternative has different limitations, the alternatives are not mutually exclusive; a registrant may register for this General Permit using more than one alternative. See Appendix A of the General Permit. Each registrant must complete this section AND Attachment C to this Registration form and a registrant who does not or cannot do so is not eligible to register under this General Permit.

Each registrant must perform a review of the Department's Natural Diversity Database maps to determine if the site of the construction activity is located within or in proximity (within ¼ mile) to a shaded area.

- a. Provide the date the NDDDB maps were reviewed: June 2014 (Print a copy of the NDDDB map you viewed since it must be submitted with this registration as part of Attachment C.)
- b. For a registrant using a limited one-year determination or safe harbor determination to register for this General Permit, provide the Department's Wildlife Division NDDDB identification number for any such determination: 201408634 (The number is on the determination issued by the Department's Wildlife Division).
- c. verify that I have completed Attachment C to this Registration Form. ☒ Yes

For more information on threatened and endangered species requirements, refer to Appendix A and Section 3(b)(2) of this General Permit, visit the DEEP website at [www.ct.gov/deep/nddbrequest](http://www.ct.gov/deep/nddbrequest) or call the NDDDB at 860-424-3011.

- 7. WILD AND SCENIC RIVERS: Is the proposed project within the watershed of a designated Wild and Scenic River? ( See Appendix H for guidance) ☐ Yes ☒ No
- 8. AQUIFER PROTECTION AREAS: Is the site located within a mapped aquifer protection area [www.ct.gov/deep/aquiferprotection](http://www.ct.gov/deep/aquiferprotection) as defined in section 22a-354h of the CT General Statutes? ☐ Yes ☒ No  
(For additional guidance, please refer to Appendix C of the General Permit)
- 9. CT GUIDELINES FOR SOIL EROSION AND SEDIMENT CONTROL: Is the activity in accordance with CT Guidelines for Erosion and Sediment Control and local erosion & sediment control ordinances, where applicable? ☒ Yes ☐ No
- 10. HISTORIC AND/OR ARCHAEOLOGICAL RESOURCES:  
Has the site of the proposed activity been reviewed (using the process outlined in Appendix G of this permit) for historic and/or archaeological resources? ☒ Yes ☐ No
  - a. The review indicates the proposed site does not have the potential for historic/ archaeological resources, OR ☒ Yes ☐ No
  - b. The review indicated historic and/ or archaeological resource potential exists and the proposed activity is being or has been reviewed by the Offices of Culture and Tourism, OR ☐ Yes ☒ No
  - c. The proposed activity has been reviewed and authorized under an Army Corps of Engineers Section 404 wetland permit. ☐ Yes ☒ No
- 11. CONSERVATION OR PRESERVATION RESTRICTION:  
Is the property subject to a conservation or preservation restriction? ☐ Yes ☒ No  
If Yes, proof of written notice of this registration to the holder of such restriction or a letter from the holder of such restriction verifying that this registration is in compliance with the terms of the restriction, must be submitted as Attachment D.

# Part V: Stormwater Discharge Information

Outfall #	a) Type	b) Pipe Material	c) Pipe Size	d) Note: To find lat/long, go to: CT ECO. A decimal format is required here. ADDENDUM NO. 1

## Part V: Stormwater Discharge Information (continued)

**Impaired waters:** If you answered "yes" to Table 3, question b., **verify** that the project's Pollution Control Plan (Plan) addresses the control measures below in Question 1 or 2, as appropriate.

1. If the impaired water does not have a TMDL, confirm compliance by selecting 1.a. or 1.b. below:

a. No more than 3 acres is disturbed at any time;

☐ Yes

OR

b. Stormwater runoff from a 2 yr, 24 rain event is **retained**.

☐ Yes

2. If the impaired water has a TMDL, confirm compliance by selecting 2.a. and 2.b. below and either question 2.c.1. or 2.c.2. below:

a. The Plan documents there is sufficient remaining Waste Load Allocations (WLA) in the TMDL for the proposed discharge,

☐ Yes

AND

b. Control measures shall be implemented to assure the WLA will not be exceeded,

☐ Yes

AND

c. 1. Stormwater discharges will be monitored for the indicator pollutant identified in the TMDL,

☐ Yes

OR

2. The Plan documents specific requirements for stormwater discharges specified in the TMDL.

☐ Yes

## Part VI: Pollution Control Plan (select one of the following four categories)

- ☐ I am registering a Locally Exempt project and submitting the required electronic Plan (in Adobe™ PDF or similar publically available format) pursuant to Section 3(c)(2)(E) of this permit.
- ☐ Plan is attached to this registration form
- ☐ Plan is available at the following Internet Address (URL):
- ☐ I am registering a Locally Approvable project and have chosen not to submit the Plan with this registration pursuant to Section 3(c)(1) of this permit.
- ☐ I am registering a Locally Approvable project and have chosen to make my Plan electronically available pursuant to Section 4(c)(2)(N) of this permit.
- ☐ Plan is attached to this registration form
- ☐ Plan is available at the following Internet Address (URL):
- ☒ I am registering a Locally Exempt project and do not have the capability to submit the Plan electronically. Therefore, I am submitting a paper copy with this registration as Attachment E.

## Part VII: Registrant Certification

The registrant *and* the individual(s) responsible for actually preparing the registration must sign this part. A registration will be considered incomplete unless all required signatures are provided.

### For New Registrants:

"I hereby certify that I am making this certification in connection with a registration under such general permit,  
[INSERT NAME OF REGISTRANT BELOW]

submitted to the commissioner by Mark D. Rolfe for  
[INSERT ADDRESS OF PROJECT OR ACTIVITY BELOW]

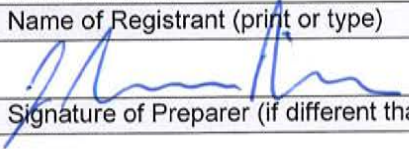

an activity located at Intersection Improvements at US 1 and Route 122, West Haven, CT and that all terms and conditions of the general permit are being met for all discharges which have been initiated and such activity is eligible for authorization under such permit. I further certify that a system is in place to ensure that all terms and conditions of this general permit will continue to be met for all discharges authorized by this general permit at the site. I certify that the registration filed pursuant to this general permit is on complete and accurate forms as prescribed by the commissioner without alteration of their text. I certify that I have personally examined and am familiar with the information that provides the basis for this certification, including but not limited to all information described in Section 3(b)(8)(A) of such general permit, and I certify, based on reasonable investigation, including my inquiry of those individuals responsible for obtaining such information, that the information upon which this certification is based is true, accurate and complete to the best of my knowledge and belief. I certify that I have made an affirmative determination in accordance with Section 3(b)(8)(B) of this general permit. I understand that the registration filed in connection with such general permit is submitted in accordance with and shall comply with the requirements of Section 22a-430b of Connecticut General Statutes. I also understand that knowingly making any false statement made in the submitted information and in this certification may be punishable as a criminal offense, including the possibility of fine and imprisonment, under Section 53a-157b of the Connecticut General Statutes and any other applicable law."

### For Re-registrants:

"I hereby certify that I am making this certification in connection with a registration under the General Permit for the Discharge of Stormwater and Dewatering Wastewaters from Construction Activities, submitted to the commissioner  
[INSERT NAME OF REGISTRANT BELOW]

by [INSERT ADDRESS OF PROJECT OR ACTIVITY BELOW] for an activity located at

and that all terms and conditions of the general permit are being met for all discharges which have been initiated and such activity is eligible for authorization under such permit. I further certify that all designs and plans for such activity meet the current terms and conditions of the general permit in accordance with Section 5(b)(5)(C) of such general permit and that a system is in place to ensure that all terms and conditions of this general permit will continue to be met for all discharges authorized by this general permit at the site. I certify that the registration filed pursuant to this general permit is on complete and accurate forms as prescribed by the commissioner without alteration of their text. I certify that I have personally examined and am familiar with the information that provides the basis for this certification, including but not limited to all information described in Section 3(b)(8)(A) of such general permit, and I certify, based on reasonable investigation, including my inquiry of those individuals responsible for obtaining such information, that the information upon which this certification is based is true, accurate and complete to the best of my knowledge and belief. I also understand that knowingly making any false statement made in the submitted information and in this certification may be punishable as a criminal offense, including the possibility of fine and imprisonment, under Section 53a-157b of the Connecticut General Statutes and any other applicable law."

## Part IX: Reviewing Qualified Professional Certification

The following certification must be signed by a) a Conservation District reviewer OR, b) a qualified soil erosion and sediment control and/or professional engineer

☐ **Review certification by Conservation District:**

1.) District: list of districts

Date of Affirmative Determination:

" I am making this certification in connection with a registration under General Permit for the Discharge of Stormwater and Dewatering Wastewaters from Construction Activities, submitted to the commissioner

[INSERT NAME OF REGISTRANT BELOW]

by

for an activity located at

[INSERT ADDRESS OF PROJECT OR ACTIVITY BELOW]

I have personally examined and am familiar with the information that provides the basis for this certification, and I affirm, based on the review described in Section 3(b)(11)(C) of this general permit and on the standard of care for such projects, that the Stormwater Pollution Control Plan is adequate to assure that the activity authorized under this general permit will comply with the terms and conditions of such general permit and that all stormwater management systems: (i) have been designed to control pollution to the maximum extent achievable using measures that are technologically available and economically practicable and that conform to those in the Guidelines and the Stormwater Quality Manual; (ii) will function properly as designed; (iii) are adequate to ensure compliance with the terms and conditions of this general permit; and (iv) will protect the waters of the state from pollution."

Signature of District Professional and Date

Name of District Professional and License Number (if applicable)

Or

☐ **Review certification by Qualified Professional**

Company: \_\_\_\_\_

Name: \_\_\_\_\_

License # : \_\_\_\_\_

**Level of independency of professional:**

**Required for all projects disturbing over 1 acre:**

1. I verify I am not an employee of the registrant. ☐ Yes
2. I verify I have no ownership interest of any kind in the project for which the registration is being submitted. ☐ Yes

**Required for projects with 15 or more acres of site disturbance ( in addition to questions 1&2):**

3. I verify I did not engage in any activities associated with the preparation, planning, designing or engineering of the soil erosion and sediment control plan or stormwater management systems plan for this registrant. ☐ Yes
4. I verify I am not under the same employ as any person associated with the preparation, planning, designing or engineering of the soil erosion and sediment control plan or stormwater management systems plan for this registrant. ☐ Yes

## Part IX: Reviewing Qualified Professional Certification (continued)

"I hereby certify that I am a qualified professional engineer or qualified soil erosion and sediment control professional, or both, as defined in the General Permit for Discharge of Stormwater and Dewatering Wastewaters from Construction Activities and as further specified in Sections 3(b)(11)(A) and (B) of such general permit. I am making this certification in connection with a registration under such general permit,

[INSERT NAME OF REGISTRANT BELOW]

submitted to the commissioner by

[INSERT ADDRESS OF PROJECT OR ACTIVITY BELOW]

for an activity located at

I have personally examined and am familiar with the information that provides the basis for this certification, including but not limited to all information described in Section 3(b)(11)(C) of such general permit, and I certify, based on reasonable investigation, including my inquiry of those individuals responsible for obtaining such information, that the information upon which this certification is based is true, accurate and complete to the best of my knowledge and belief. I further certify that I have made the affirmative determination in accordance with Sections 3(b)(11)(D)(i) and (ii) of this general permit. I understand that this certification is part of a registration submitted in accordance with Section 22a-430b of Connecticut General Statutes and is subject to the requirements and responsibilities for a qualified professional in such statute. I also understand that knowingly making any false statement in this certification may be punishable as a criminal offense, including the possibility of fine and imprisonment, under Section 53a-157b of the Connecticut General Statutes and any other applicable law."

### CONNECTICUT DEPARTMENT OF TRANSPORTATION Office of Environmental Planning Water and Natural Resources COASTAL CONSISTENCY REVIEW FORM

*This form must be completed when a state project falls within the coastal boundary as defined in subsection (b) of section 22a-94 of the Connecticut General Statutes. The following information is being provided to the Office of Environmental Planning (OEP) for review with consistency with the Coastal Goals and Policies defined in CGS section 22a-92.*

State Project #: 156-170

Designer: BL/CME/DTC Phone: Click here to enter text.

Project Description: Intersection Improvements, portion of stormwater basin in CAM

Date of submittal: 1/16/2014

Anticipated Construction Start Date: Fall 2014

Town: West Haven

### SEE ATTACHED DEEP CAM FORM FOR ALL PERTINENT PROJECT INFORMATION

**Required Attachments:** Location map; project description; pertinent plan sheets (including E & S), and site photos.

#### Stormwater Treatment Concerns

- Does the project result in an increase in impervious surface? If so, how much (square feet) and what percentage increase over existing does that represent? Click here to enter text.
- If drainage systems are being upgraded or modified, what Primary and Secondary Stormwater Treatment measures (as defined by the 2004 DEP Stormwater Quality Manual) have been incorporated into the design? Click here to enter text.
- The ultimate outfall of any drainage on the project must be identified on the plans provided. Please provide a status on the stability of that outfall and if any improvements are required in conformance with the DOT Drainage Manual: Click here to enter text.

#### Erosion & Sedimentation Control

- Does the project result in ground disturbance / erodible surface? If so, how much? (acres): Click here to enter text.
- What is the anticipated construction duration? Click here to enter text.
- Have staging and storage, constructability, and access needs been incorporated into the plan and considered? Click here to enter text.
- Are engineered measures for E & S necessary during construction? Describe how the project is in accordance with the 2002 CT E & S Guidelines: Click here to enter text.

THIS SECTION TO BE COMPLETED BY ENVIRONMENTAL PLANNING

It has been determined that:

- ☒ This project has been reviewed and found to be consistent with the Coastal Goals and Policies as defined in CGS section 22a-92.
- ☐ More information is required at this time to ensure consistency with coastal goals and policies. Please provide the information listed below.
- ☐ This project has been determined to not be in conformance with coastal goals or policies or may have an adverse impact on coastal resources. OEP has determined that a Coastal Consistency Review Form must be prepared and submitted to the Department of Energy and Environmental Protection (via OEP) for review and approval.

*If the project design / scope of work changes, affecting water or natural resource impacts; the project must be resubmitted for review by Environmental Planning. All projects must be in conformance with Section 1.10 of the Form 816, Standard Specifications for Roads, Bridges and Incidental Construction. Any other Time of Year Restrictions, and permit special conditions for other programs must be adhered to at all times.*

Required Information / Special Conditions / Notes:

### Natural Diversity Database (NDDDB) and Drinking Water Resources

Do the project limits possibly contain State or Federally listed species? ☐ Yes ☒ No If yes, further coordination with OEP is required for this project.

Does the project contain public watershed, a well head protection area, and/or aquifer protection area (APA)? ☐ Yes ☒ No If yes, further coordination with OEP and possibly the Department of Public Health and Water Company will be required for this project.

# ATTACHMENT C: THREATENED AND ENDANGERED SPECIES

Information about compliance with the requirements of Section 3(b)(2) of this general permit, regarding threatened and endangered species, is in Appendix A of the general permit. Choose one or more (if applicable) of the following in order to be eligible to register for this General Permit. A registrant who does not or cannot do so is not eligible to register under this General Permit.

☐ Self Assessment using the NDDDB maps – Select this only if:

- a. The site of the construction activity is not entirely, partially or within a ¼ mile of a shaded area depicted on the Department's Natural Diversity Database maps and this determination was made not more than six months before the date of submitting this registration;

AND

- b. The entity registering for this General Permit has no reasonably available verifiable scientific, or other credible information that the construction activity could reasonably be expected to have an adverse impact upon a federal or state species listed as threatened or endangered.

Attach a copy of the NDDDB map used to conduct the self assessment used to register for this general permit.

Note: Both a and b as used in this section, must be true in order for a Registrant to register for this General Permit using the self-assessment option. If neither is true, a Registrant cannot use the self-assessment option to comply with Section 3(b)(2) and Appendix A of the General Permit.

☒ Limited One-Year Determination – Select this only if:

- a. The entity registering for this General Permit has obtained a limited one-year determination from the Department's Wildlife Division regarding threatened and endangered species: i) within a year of the date of submitting this registration; or ii) more than 1 year before submitting this registration, but such determination has been extended by the Department within one year of the date of submitting this registration;

AND

- b. The Registrant has provided to the Department's Wildlife Division any reasonably available verifiable scientific, or other credible information that the construction activity could reasonably be expected to have an adverse impact upon a federal or state species listed as threatened or endangered.

Provide the date the limited one-year determination was issued by the Department's Wildlife Division \_\_\_\_\_;

or

Provide the date that the most recent extension to a limited one year determination was issued by the Department's Wildlife Division \_\_\_\_\_.

Note: Both a and b as used in this section, must be true in order for a Registrant to register for this General Permit using the Limited One-Year Determination option. If a Limited One-Year Determination or extension to any such determination was issued by the Department's Wildlife Division more than one year before the submission of this registration, a Registrant cannot use any such determination or extension to comply with Section 3(b)(2) and Appendix A of the General Permit.

## ATTACHMENT C: THREATENED AND ENDANGERED SPECIES (continued)

- ☐ **Select here if the Limited One-Year Determination issued by the Department includes a Mitigation Plan.**

Provide the date the Mitigation Plan was approved: \_\_\_\_\_

Governmental Entity Approving the Plan: \_\_\_\_\_

**As of the date this Registration is submitted,**

Has the Mitigation Plan been fully implemented? ☐ Yes ☐ No

Date commenced: \_\_\_\_\_ Date completed: \_\_\_\_\_

Is the Mitigation Plan partially implemented? ☐ Yes ☐ No

If yes, what actions have been taken? \_\_\_\_\_

And which actions are yet to be implemented and what is the timeframe for completion of such actions: \_\_\_\_\_

Is the Mitigation Plan yet to be implemented? ☐ Yes ☐ No

If yes, specify the timeframe for implementation: \_\_\_\_\_ to \_\_\_\_\_

And summarize actions to be implemented: \_\_\_\_\_

- ☐ **Safe Harbor Determination - Select this only if:**

- a. The entity registering for this General Permit has obtained a Safe Harbor Determination from the Department's Wildlife Division regarding threatened and endangered species: i) within 3 years of the date of submitting this registration; or ii) more than 3 years before submitting this registration, but within one-year of a one-year extension issued by the Department's Wildlife Division to a safe harbor determination;

AND

- b. The entity registering for this General Permit has provided to the Department's Wildlife Division any reasonably available verifiable scientific, or other credible information that the construction activity could reasonably be expected to have an adverse impact upon a federal or state species listed as threatened or endangered.

Provide the date the Department's Wildlife Division issued a Safe Harbor Determination: \_\_\_\_\_

If applicable, provide the date that any one-year extension to a Safe Harbor Determination was issued by the Department's Wildlife Division: \_\_\_\_\_.

Note: Both a and b as used in this section, must be true in order for a Registrant to register for this General Permit using the Safe Harbor Determination option. If a Safe Harbor Determination was issued by the Department's Wildlife Division more than three years before the submission of this registration, and has not been extended, a Registrant cannot use any such safe harbor to comply with section 3(b)(2) and Appendix A of this General Permit. If a Safe Harbor Determination was granted and extended for one-year, more than four years before the submission of this registration, a Registrant cannot use any such Safe Harbor Determination to comply with Section 3(b)(2) and Appendix A of the general permit.

## ATTACHMENT C: THREATENED AND ENDANGERED SPECIES (continued)

- ☐ **Select here if the safe harbor noted above includes a Mitigation Plan.**

Provide the date the Mitigation Plan was approved: \_\_\_\_\_

Governmental Entity Approving the Plan: \_\_\_\_\_

**As of the date this Registration is submitted,**

Has the Mitigation Plan been fully implemented? ☐ Yes ☐ No

Date commenced: \_\_\_\_\_ Date completed: \_\_\_\_\_

Is the Mitigation Plan partially implemented? ☐ Yes ☐ No

If yes, what actions have been taken? \_\_\_\_\_

And which actions are yet to be implemented and what is the timeframe for completion of such actions: \_\_\_\_\_

Is the Mitigation Plan yet to be implemented? ☐ Yes ☐ No

If yes, specify the timeframe for implementation: \_\_\_\_\_ to \_\_\_\_\_

And summarize actions to be implemented: \_\_\_\_\_

# Natural Diversity Data Base

## Areas

### WEST HAVEN, CT

June 2014

-  State and Federal Listed Species & Significant Natural Communities
-  Town Boundary

**NOTE:** This map shows general locations of State and Federal Listed Species and Significant Natural Communities. Information on listed species is collected and compiled by the Natural Diversity Data Base (NDDB) from a number of data sources. Exact locations of species have been buffered to produce the general locations. Exact locations of species and communities occur somewhere in the shaded areas, not necessarily in the center. A new mapping format is being employed that more accurately models important riparian and aquatic areas and eliminates the need for the upstream/downstream searches required in previous versions.

This map is intended for use as a preliminary screening tool for conducting a Natural Diversity Data Base Review Request. To use the map, locate the project boundaries and any additional affected areas. If the project is within a shaded area there may be a potential conflict with a listed species. For more information, complete a Request for Natural Diversity Data Base State Listed Species Review form (DEP-APP-007), and submit it to the NDDB along with the required maps and information. More detailed instructions are provided with the request form on our website.

Project: GP Registration for the Discharge of Storm Water and Dewatering Wastewaters from Construction Activities for the Re-alignment and Intersection improvements at Route 1 and Route 122 in West Haven  
NDDB Determination No.: 201408634

Dear Amanda Saul,

I have reviewed Natural Diversity Data Base (NDDB) maps and files regarding the area delineated on the map provided for the proposed GP Registration for the Discharge of Storm Water and Dewatering Wastewaters from Construction Activities for the Re-alignment and Intersection improvements at Route 1 and Route 122 in West Haven, Connecticut. I do not anticipate negative impacts to State-listed species (RCSA Sec. 26-306) resulting from your proposed activity at the site based upon the information contained within the NDDB. The result of this review does not preclude the possibility that listed species may be encountered on site and that additional action may be necessary to remain in compliance with certain state permits. This determination is good for one year. Please re-submit an NDDB Request for Review if the scope of work changes or if work has not begun on this project by September 14, 2015.

Natural Diversity Data Base information includes all information regarding critical biological resources available to us at the time of the request. This information is a compilation of data collected over the years by the Department of Energy and Environmental Protection's Natural History Survey and cooperating units of DEEP, private conservation groups and the scientific community. This information is not necessarily the result of comprehensive or site-specific field investigations. Consultations with the Data Base should not be substitutes for on-site surveys required for environmental assessments. Current research projects and new contributors continue to identify additional populations of species and locations of habitats of concern, as well as, enhance existing data. Such new information is incorporated into the Data Base as it becomes available.

Please contact me if you have further questions at (860) 424-3592, or [dawn.mckay@ct.gov](mailto:dawn.mckay@ct.gov). Thank you for consulting the Natural Diversity Data Base.

Sincerely,

Dawn M. McKay  
Environmental Analyst 3

## 1. SITE PLAN

Refer to site plan included with Appendix C.

## 2. SITE DESCRIPTION

### ***Nature of the construction activity:***

The construction of 1400 feet of widened/realigned Route 122 including two 11-foot lanes on the intersection approaches, one 11-foot left turn lane and two 11-foot receiving lanes on both legs (five lanes total each approach) and 1 to 4-foot shoulders in both directions.

The widening of 1800 feet of US Route 1 includes a left-turn lane on both approaches to the intersection. This will yield two 12-foot lanes on the intersection approaches, one 11-foot left turn lane and two 12-foot receiving lanes on both legs (five lanes total each approach) and 2 to 4-foot shoulders in both directions.

The replacement of most of the drainage systems along US Route 1 and Route 122 and the construction of a new storm sewer outfall that will discharge the water quality flow of the system into a 2.4 acre-foot water quality basin proposed for the west side of Atwood Place. In accordance with ConnDOT requirements, the proposed drainage systems along state roadways have been designed for the 10 year return frequency.

The project also includes the relocation of decorative illumination, park benches and replacement/resetting of pavers and vegetation in vicinity of the park and adjacent to sidewalks throughout the project limits., the revisions of signing and pavement markings and the installation of a new traffic signal to replace the existing one.

### ***Drainage***

Runoff from the project discharges in two directions:

#### Lower Club Creek south of the intersection of US Route 1 and Route 122

Most of the project-related storm drainage discharges to Lower Club Creek to the south of US Route 1 which ultimately leads to the West River. Two drainage pipes currently convey storm water from US Route 1 and discharge it roughly 900 feet south of US Route 1 along Atwood

Place. This marks the beginning of Lower Club Creek for a combined watershed of approximately 56 acres. Storm drainage from this system will be treated through the 2.4 acre-foot water quality basin which is proposed to be located just upstream of the Lower Club Creek channel.

#### Upper Club Creek north of the intersection of US Route 1 and Route 122

A small portion of the project-related drainage (the most northerly 380 feet of Route 122) discharges to the 84-inch diameter interceptor culvert that crosses Route 122 at Station 82+67. Within the project limits of this intersection improvement project, the proposed catch basins contributing to this system will have 4 foot sumps for stormwater treatment. There are no wetlands in the vicinity of this project north of US Route 1.

#### ***Estimated Disturbed Area***

The total area within the project limits is approximately 12.42 acres of which 10.53 acres will be disturbed by construction activities.

#### ***Estimated Runoff Coefficient***

The average runoff coefficient for the site will be approximately 0.57 after construction activities are complete. The average runoff coefficient prior to construction was 0.56.

#### ***Wetland Impacts***

It is estimated that the proposed project will permanently impact 0.046 acres (2015 square feet) of wetlands with an additional 0.004 acres (153 square feet) of anticipated temporary impacts. The impacts will be confined to the first 140 feet of Lower Club Creek. The wetland is essentially an outfall for the area storm drainage systems and begins at Outfall EO-1 and Outfall EO-2. The impacts are related to the construction of a modified riprap outlet channel from the proposed 2.4 acre-foot water quality basin and stormwater drainage system. The proposed channel will have an area of 0.017 acres (740 square feet) resulting in a net permanent wetland loss of 0.029 acres (1,275 square feet).

### **3. CONSTRUCTION SEQUENCING**

The project is scheduled to begin in the Spring of 2015 with an estimated construction duration of 2 years.

*If the construction activities create an area of disturbance between (2) acres and (5) acres per discharge point,* the Contractor must submit to the Engineer a revised SWPCP for review and approval. The SWPCP must include locations of the temporary sedimentation trap per discharge point with a capacity to contain 134 cubic yards per acre of material in accordance with the Guidelines. The Contractor shall provide an inspection and maintenance plan for the temporary sedimentation trap as part of the amended SWPCP.

*If the area of disturbance has potential to reach more than five (5) acres per discharge point,* the Contractor must submit to the Engineer a revised SWPCP for review and approval. The SWPCP must include locations of the temporary sedimentation basin designed and installed in accordance with the Guidelines. The Contractor shall provide an inspection and maintenance plan for the temporary sedimentation basin as part of the amended SWPCP.

1. Establish the limits of construction prior to the pre-construction meeting. (1 week duration)
2. Hold pre-construction meeting. (Remember to call before you dig at 1-800-922-4455). (1 day duration)
3. Flag limits of construction and tree protection zones. (1 week duration)
4. Provide for traffic and pedestrian control. (Project duration)
5. Install erosion and sediment control devices and tree protection devices in accordance with the erosion and sedimentation control plan. In general, each existing and newly installed catch basin will be protected with a "silt sack" filter. (2 week duration)
6. Cut trees within the defined clearing limits and remove cut wood. Chip brush and slash, remove chips, debris and tree stumps and legally dispose of off-site. (2 week duration)
7. Construct temporary sediment trap. (2 week duration)
8. Construct permanent stormwater quality basin. (4 week duration)
9. Begin construction of the sewer systems (during construction the contractor shall provide on a daily basis dust control, cleanup, grading and removal of excavated material). (8 week duration)
10. Prior to the installation of surface water controls, inspect existing conditions. (1 week duration)
11. Upon substantial completion of each phase of work, the contractor shall install either temporary or binder pavement courses where possible. (8 week duration)
12. When all other work has been completed, repair and sweep all paved areas for the final courses of paving. Inspect the drainage system and clean as needed. (24 week duration)
13. Install final pavement course, sidewalk, and driveways. (24 week duration)
14. Install landscape plantings. (8 week duration)
15. Remove temporary erosion and sediment controls after the site is stabilized. (1 week duration)
16. Upon completion of construction, clean all catch basins and storm manholes of all accumulated sediment, debris, etc. (1 week duration)
17. After all post-construction stormwater structures are cleaned of construction sediment and any remaining silt fence removed, the "Notice of Termination Form" must be submitted. (1 week duration)

## **4. STORMWATER CONTROL MEASURES**

### **4.1. Erosion and Sediment Controls**

#### **4.1.1. Temporary Stabilization Practices**

##### **4.1.1.1. Silt Fence Perimeter Control**

- Remove sediment when it reaches one-third the height of the fence. Should the fabric on a silt fence decompose or become ineffective, replace fabric promptly. Inspect once every 7 calendar days or within 24 hours of the end of a storm event of 0.1 inches or greater. Inspect fence for accumulated sediment height, damage, and gaps between fence and ground.

##### **4.1.1.2. Soil Stockpiles**

- The soil stockpiles shall be ringed with silt fence. These rings shall be maintained during the period that materials are stored. Stockpiles stored for more than 30 days shall be seeded with temporary cover to prevent erosion. Do not hose down or sweep soil or sediment accumulated on pavement or other impervious surfaces into any stormwater conveyance, storm drain inlet, or surface water unless connected to a sediment basin, sediment trap, or similarly effective control.

##### **4.1.1.3. Temporary Seed and Mulch**

- Records of all stabilization activities and buffer zone conditions shall be kept and noted on weekly inspection reports. Inspect weekly seeded areas for failure and, if needed, reseed and repair them as soon as possible. If a stand has inadequate cover, reevaluate the choice of plant materials and quantities of lime and fertilizer.

##### **4.1.1.4. Temporary Sediment Trap**

- Inspect temporary sediment trap once every 7 calendar days or within 24 hours of the end of a storm event of 0.1 inches or greater. Sediment basin will be cleaned out when sediment reaches 50% of original capacity.

##### **4.1.1.5. Dewatering**

- With backwash water, either haul it away for disposal or return it to the beginning of the treatment process; and replace and clean the filter media used in dewatering devices when the pressure differential equals or exceeds the manufacturer's specifications.

##### **4.1.1.6. Erosion Control Blanket**

- Inspect temporary erosion control blankets at least once a week within 24 hours of the end of a storm with a rainfall amount of 0.1 inch or greater for failures. Blanket failure has occurred when soils and/or seed have washed away from beneath the blanket and the soil surface can be expected to continue to erode at an accelerated rate, and/or the blanket has become dislodged from the soil surface or is torn. If washouts or breakouts occur, re-

install the blanket after regrading and re-seeding, ensuring the blanket installation still meets design specifications.

#### **4.1.2. Structural Measures**

##### **4.1.2.1. Inlet Protection**

- Clean, or remove and replace, the protection measures as sediment accumulates, the filter becomes clogged, and/or performance is compromised. Where there is evidence of sediment accumulation adjacent to the inlet protection measure, you must remove the deposited sediment by the end of the same work day in which it is found or by the end of the following work day if removal by the same work day is not feasible.

#### **4.1.3. Permanent Stabilization Practices**

##### **4.1.3.1. Permanent Planting**

- Landscape areas should be planted in good topsoil. Native topsoil may be used if found suitable by amending per recommendations of a certified soil testing agency. Landscape areas shall be dressed with a minimum of six (6) inches of topsoil. All areas not covered by paving or defined shall be topsoiled and seeded. Use erosion control matting where indicated on site plan.

#### **4.2. Post Construction Stormwater Management**

The Route 1 & 122 intersection improvement project can be categorized as a "linear" "redevelopment" as described in Section 5(b)(2)(C)(i)(a) of the General Permit. The project increases impervious area from approximately 7.61 to 7.88 acres.

Retention and infiltration of one-half of the water quality volume is not possible given the steep topography of the reconstruction area, located in a fully developed urban area discharging in the lower reach of the greater watershed area.

Acquisition of private land would be required to provide suitable retention area located away from buried public utilities.

Treatment of the entire water quality volume is provided by the stormwater quality basin proposed on Atwood Place.

##### **4.2.1. Suspended Solids and Floatables Removal**

The treatment train begins with deep sump catch basins installed within the project limits. Flow intercepted by the catch basins is conveyed to the stormwater quality basin located on Atwood Place.

A weir structure located in Atwood Place diverts the "first flush" water quality volume to the basin. The basin consists of two cells separated by an earthen berm to capture solids and floatables.

The first cell is lined with rip-rap and serves as a sediment forebay. Once this cell fills to capacity, it overflows into the second cell. The final discharge from the basin is a 3 inch diameter orifice plate located significantly higher than the bottom elevation of the basin. This allows sufficient time for particle settling minimizing

sediment transfer out of the basin. The orifice is covered with a trash rack. Sizing calculations are provided in Appendix D.

#### **4.2.2. Velocity Dissipation**

Three outlet locations exist on this project. Two outfalls discharge directly into the water quality basin which has rip-rap armor for energy dissipation. Under most conditions, these outlets into the basin will be partly or fully submerged.

The box culvert conveying flow leaving the stormwater quality basin discharges into a rip-rap lined channel for energy dissipation prior to discharge into Club Creek.

Sizing calculations are provided in Appendix D.

### **4.3. Other Controls**

#### **4.3.1. Waste Disposal**

- Solid waste dumpsters will be located on-site to properly dispose of solid waste materials, including trash and construction debris. Recycle materials whenever possible. Locate waste-collection areas away from streets, gutters, watercourses, and storm drains.
- Clean up litter and debris from the construction site daily.

#### **4.3.2. Washout Areas**

- Clearly mark the washout areas and inform workers that all washing must occur in this area. Use high-pressure water spray without detergents. Do not conduct any other activities, such as vehicle repairs, in the washout area.
- No surface discharge of washout wastewaters from the area will be allowed. All concrete washwater will be directed into a container or pit such that no overflows can occur. Washout shall be conducted in an entirely self-contained system. The washout area shall be located outside of any buffers and at least 50 feet from any stream, wetland or other sensitive water of natural resources.

#### **4.3.3. Off-site Vehicle Tracking**

- Install temporary construction entrance.
- The entrance will be maintained in a condition which will prevent tracking and washing of sediment onto paved surfaces.
- Where sediment has been tracked-out from the site onto the surface of off-site streets, other paved areas, and sidewalks, the contractor must remove the deposited sediment by the end of the same work day in which the track-out occurs or by the end of the next work day if track-out occurs on a non-work day. The contractor must remove the track-out by sweeping, shoveling, or vacuuming these surfaces, or by using other similarly effective means of sediment removal. The contractor is prohibited from hosing or sweeping tracked-out sediment into any stormwater conveyance (unless it is connected to a sediment basin, sediment trap, or similarly effective control), storm drain inlet, or surface water.

#### **4.3.4. Dust Control**

- The contractor will implement the following reasonable precautions during construction to minimize; the generation of fugitive dust: Use water for dust control of active construction areas, active unpaved areas, and other surfaces, which can give rise to airborne dust.

#### **4.3.5. Chemical and Petroleum Storage**

- Provide storage with secondary containment and provide cover for hazardous materials when necessary.
- Ensure that storage containers are regularly inspected for leaks, corrosion, support or foundation failure, or any signs of deterioration and tested for soundness. Inspect weekly.

### **5. RUNOFF REDUCTION AND LOW IMPACT DEVELOPMENT (LID) INFORMATION**

Given the character of the road reconstruction project and location within a fully developed urban area, runoff reduction and low impact development practices were not implemented on this project.

Suspended solids removal for the entire drainage area contributing to the outfall at Club Creek, including offsite and private sources of runoff upstream, was deemed critical in sizing the water quality basin (temporary sediment basin) at Atwood Place compared to implementation of stormwater retention.

### **6. INSPECTIONS**

#### **6.1. Plan Implementation Inspections**

Within 30 days after the start of construction activity on-site, a qualified professional engineer or soil erosion and sediment control professional must inspect the site and complete the form provided in Appendix A.

The site must be inspected at least once and no more than 3 times during the first 90 days to confirm compliance with the general permit and implementation of all control measures described in this plan.

#### **6.2. Routine Inspections**

##### **6.2.1. Procedure**

At least once per week AND within 24 hours of the end of a storm event greater than 0.1 inch (a rain gauge must be maintained on site), the qualified inspector must inspect and document the following:

- Date, time, weather and temperature at the time of inspection.
- Date and time of last storm event
- Storm duration and amount of precipitation (inches)
- Description of any stormwater discharge since last inspection
- Description of current construction activity
- Verify erosion control measures are implemented

- Note any corrective measures required
- Soil stockpile areas
- Equipment washout areas
- Construction entrances
- Material storage areas
- Equipment fueling and chemical storage areas

#### **6.2.2. Report Preparation**

A sample Construction Site Environmental Inspection Report is provided in Appendix B. Completed reports must remain with this plan.

#### **6.3. Keeping the Plan Current based on inspections**

Corrective actions to remedy concerns documented by the qualified inspector must be implemented with 24 hours after discovery. If the corrective action requires modification of procedures outlined in this plan, such changes must be incorporated with 3 days of the date of inspection.

The time frame is extended to 7 days for corrective action and 10 days for plan revision in the case of engineered measures. Engineered measures specific to this project include permanent turf reinforcement mats, retaining walls, rip-rap, water quality basin, and outlet protection.

Interim measures must be implemented to minimize discharge of pollutants from the site while corrective actions are being developed.

### **7. MONITORING**

#### **7.1. Sample Collection Procedure**

Stormwater samples must be collected and analyzed for turbidity at least once per month until final stabilization of the drainage area contributing to each respective outfall is achieved.

Sampling is only required during normal working hours as defined in this plan. If the stormwater discharge continues into the next working day, sampling shall resume for the duration of the discharge.

At each outfall, at least 3 grab samples shall be collected during a storm event. The first sample should be collected within the first hour of stormwater discharge. Samples may be analyzed with an in-situ turbidity probe or by an off-site laboratory. Each of the 9 samples (3 samples at 3 outfalls) must be analyzed individually, composite samples are not permitted.

If there is no discharge during a month, sampling is not required however the Stormwater Monitoring Reports (SMRs) still need to be completed and submitted to DEEP.

#### **7.2. Sample locations**

Three outfalls represent stormwater discharges from this project. Each location is noted on the site plan and must be field staked. The locations are described as follows:

Outfall EO-1 – Discharge from existing 36" RCP to Club Creek

Outfall EO-2 – Discharge from existing 48" RCP to Club Creek

Outfall PO-1 – Discharge from 6'x3.5' box culvert at stormwater quality basin to Club Creek.

### **7.3. Submission of Stormwater Monitoring Reports**

Sample results must be tabulated on the Stormwater Monitoring Form (SMR) provided in Appendix B and submitted to DEEP within 30 days following end of each monthly sample period.

## **8. CONTRACTORS**

Each contractor and subcontractor that will perform work on site must complete the form included in Appendix F. Completed copies of this form, including signature acknowledging the certification statement, must be maintained with this plan at all times.

## **9. RECORD KEEPING REQUIREMENTS**

For a period of at least five years from the date that construction is complete, the permittee shall retain copies of the Plan and all reports required by this general permit, and records of all data used to complete the registration for this general permit, unless the commissioner specifies another time period in writing. Inspection records must be retained as part of the Plan for a period of five (5) years after the date of inspection.

The permittee shall retain an updated copy of the Plan required by this general permit at the construction site from the date construction is initiated at the site until the date construction at the site is completed.

## **10. TERMINATION REQUIREMENTS**

The Notice of Termination included as Appendix E must be completed and submitted to DEEP at the end of the project. Once completed, the form must be mailed to the following address:

CENTRAL PERMITS PROCESSING UNIT  
BUREAU OF MATERIALS MANAGEMENT & COMPLIANCE ASSURANCE  
DEPARTMENT OF ENERGY & ENVIRONMENTAL PROTECTION  
79 ELM STREET  
HARTFORD, CT 06106-5127

The project is considered complete after all post-construction measures are installed, cleaned and functional, and the site has been stabilized for at least three months following completion of construction. A site is considered stabilized when there is no active erosion or sedimentation present and no disturbed areas remain exposed for all phases.

The qualified inspector must verify final stabilization at least three months after the completion of construction before the Notice of Termination can be filed with DEEP.

## APPENDIX A – Construction Site Environmental Inspection Report

**State of Connecticut  
Department of Transportation  
Construction Site Environmental Inspection Report**

**This Form Must Be Completed At Least Once A Week And Within Twenty Four (24) Hours Of  
The End Of A Storm Event That Is 0.1 inches Or Greater**

General Information			
Project Number		Date	
Permit Number(s)		Location	
		Phone No.	
Project Engineer		Chief Inspector	
Contractor			
Describe present phase of construction/activities that are occurring			
<b>Type of Inspection:</b> <input type="checkbox"/> Weekly <input type="checkbox"/> Pre-storm event <input type="checkbox"/> During storm event <input type="checkbox"/> Post-storm event			
Weather Information			
Has there been a storm event since the last inspection? <input type="checkbox"/> Yes <input type="checkbox"/> No    If yes, provide:			
Storm Start Date & Time:	Storm Duration (hrs):	Type and Approximate Amount of Precipitation (in):	
<b>Weather at time of this inspection?</b> <input type="checkbox"/> Clear <input type="checkbox"/> Cloudy <input type="checkbox"/> Rain <input type="checkbox"/> Sleet <input type="checkbox"/> Fog <input type="checkbox"/> Snowing <input type="checkbox"/> High Winds    Temperature:			

**Site-specific BMPs**

- Number the structural and non-structural BMPs on your site map and list them below (add as many BMPs as necessary). Carry a copy of the numbered site map for reference with you during your inspections.

BMP Maintenance							
	BMP or Observation Site and Location	BMPs Installed ?	BMP Maintenance Required?	Remedial Action Required and Date Contractor was Notified *ALL REMEDIAL ACTIONS MUST BE COMPLETED WITHIN 24 HOURS*	Date Fixed	Photo Taken ?	Repeat Failure?
1		<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Yes <input type="checkbox"/> No			<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Yes <input type="checkbox"/> No
2		<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Yes <input type="checkbox"/> No			<input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Yes <input type="checkbox"/> No

- GENERAL NOTES:
- CONTRACTOR IS TO REMOVE ALL EXISTING STORM PIPES WITHIN THE BOUNDS OF THE NEW ROADWAY WHERE THE CONCRETE BASE IS NOT BEING RETAINED, EXCEPT THOSE PIPES BEING INCORPORATED INTO THE NEW STORM SYSTEM.
  - STORM SERVICES NOT BEING ABANDONED ARE TO BE CONNECTED TO THE PROPOSED SYSTEM.
  - CONTRACTOR IS TO REMOVE ALL EXISTING STORM STRUCTURES WITHIN THE BOUNDS OF THE NEW ROADWAY WHERE THE CONCRETE BASE IS NOT BEING RETAINED, EXCEPT THOSE STRUCTURES BEING INCORPORATED INTO THE NEW STORM SYSTEM OR NOTED AS ABANDONED.
  - THE CONTRACTOR IS RESPONSIBLE FOR THE IMMEDIATE REPAIR OF ANY UTILITY DAMAGED DURING CONSTRUCTION AT HIS OWN COST.
  - TYPE A GRATES SHALL BE USED ON ALL CATCH BASINS.
  - REMOVE THE SECTIONS OF THE PIPE THAT EXIST OUTSIDE OF THE EXISTING ROADWAY'S CONCRETE BASE. FOR THE SECTIONS UNDER THE CONCRETE BASE, PLUG ENDS AND FILL WITH FLOWABLE FILL

PAVING LEGEND (SEE TYPICAL AND CROSS SECTIONS FOR MORE DETAIL)

- REMOVE EXISTING CONCRETE BASE
- MILL BITUMINOUS CONCRETE 0-4" (ON EXISTING CONCRETE BASE)
- SAWCUT EXISTING CONCRETE BASE
- EROSION CONTROL MATTING

## APPENDIX D – Supporting Calculations

## WATER QUALITY VOLUME

$$WQV = (P)(R)(A)/12$$

Where WQV = Water Quality Volume, acre ft  
R = Volumetric Runoff Coefficient =  $0.05 + 0.009(I)$   
I = Percent of Impervious Cover (%)  
A = Site Areas, acres  
P = design precipitation, inches (1" for water quality storm)

A = 44.741 acres  
I = 50.84 %  
R = 0.50756  
P = 1 inch

$$WQV = 1.892 \text{ acre ft}$$

## WATER QUALITY FLOW

$$CN = 1000 / (10 + 5P + 10Q - 10(Q^2 + 1.25QP)^{0.5})$$

Where CN = Runoff Curve Number  
Q = runoff depth (in watershed inches) =  $[WQV \text{ (acre ft)}] \times [12 \text{ (inches / foot)}] / [A \text{ (acres)}]$

$$Q = 0.50756 \text{ inches}$$

$$CN = 94.1$$

Time of Concentration from separate calculations :  
Tc = 27.9 minutes = 0.465 hours

$$\text{Initial abstraction, } I_a = 0.121$$

$$I_a/P = 0.121$$

$$\text{Unit peak discharge, } Q_u, \text{ from Exhibit 4-III (TR-55)} = 415 \text{ cfs/SqMile/inch}$$

$$WQF = (Q_u)(A)(1 \text{ Sq Mile}/640 \text{ acres})(Q) = 14.73 \text{ cfs}$$

**Sta 24+60Lt Atwood Place**

**TYPE C:** Well defined channel downstream

**Length of Apron:**

$$L_a = (3 * (Q - 5)) / (S_p^{1.5}) + 10$$

where Q = pipe (design) discharge, (cfs)

$S_p$  = inside diameter for circular sections or maximum inside pipe span for non-circular sections (ft)

$L_a$  = Length of Apron (ft)

$$Q_{50} = 125 \text{ cfs}$$

$$S_p = 6 \text{ ft}$$

$$L_a = 34 \text{ ft}$$

**Width of Apron:**

$W_3 =$  Use Whichever is Greater:

$$3S_p$$

$$2Z * (TWE + 1) + C_b$$

$$2Z * (0.7 * R_p) + C_b$$

where  $C_b =$  Channel Bottom

$Z =$  Channel Side Slope

$R_p =$  maximum inside pipe rise, (ft)

TW = tailwater depth, (ft)

$W_3 =$  Width of Apron (ft)

$$C_b = 5 \text{ ft}$$

$$Z = 3$$

$$TWE = 3 \text{ ft}$$

$$R_p = 3.5 \text{ ft}$$

$$3S_p = 18 \text{ ft}$$

$$2Z * (TWE + 1) + C_b = 29 \text{ ft}$$

$$2Z * (0.7 * R_p) + C_b = 19.7 \text{ ft}$$

## APPENDIX E – Notice of Termination Form

# General Permit for the Discharge of Stormwater and Dewatering Wastewaters from Construction Activities

## Notice of Termination Form

Please complete and submit this form in accordance with the general permit (DEP-PED-GP-015) in order to ensure the proper handling of your termination. Print or type unless otherwise noted.

Note: Ensure that for commercial and industrial facilities, registrations under the *General Permit for the Discharge of Stormwater Associated with Industrial Activity* (DEP-PED-GP-014) or the *General Permit for the Discharge of Stormwater from Commercial Activities* (DEP-PED-GP-004) have been filed where applicable. For questions about the applicability of these general permits, please call the Department at 860-424-3018.

### Part I: Registrant Information

1. Permit number: **GSN**
2. Fill in the name of the registrant(s) as indicated on the registration certificate:  
Registrant: **Mark D. Rolfe, Connecticut Department of Transportation**
3. Site Address: **Intersection of Route 1 & 122**  
City/Town: **West Haven** State: **CT** Zip Code: **06516**
4. Date all storm drainage structures were cleaned of construction sediment:  
Date of Completion of Construction:  
Date of Last Inspection (must be at least three months after final stabilization pursuant to Section 6(b)(6)(D) of the general permit):
5. Check the post-construction activities at the site (check all that apply):  
☐ Industrial ☐ Residential ☐ Commercial ☐ Capped Landfill  
☒ Other (describe): **State highway**

### Part II: Certification

"I have personally examined and am familiar with the information submitted in this document and all attachments thereto, and I certify that, based on reasonable investigation, including my inquiry of those individuals responsible for obtaining the information, the submitted information is true, accurate and complete to the best of my knowledge and belief. I understand that a false statement made in this document or its attachments may be punishable as a criminal offense, in accordance with Section 22a-6 of the Connecticut General Statutes, pursuant to Section 53a-157b of the Connecticut General Statutes, and in accordance with any other applicable statute."

Date

Name of Permittee (print or type)

Title (if applicable)

Note: Please submit this Notice of Termination Form to:

STORMWATER PERMIT COORDINATOR  
BUREAU OF WATER MANAGEMENT  
DEPARTMENT OF ENVIRONMENTAL PROTECTION  
79 ELM STREET  
HARTFORD, CT 06106-5127

## APPENDIX F— Contractor Certification

## Contractor Certification Statement

### Intersection Improvements at U.S. Route 1 and Route 122

***Must be completed for each contractor or subcontractor on-site***

"I certify under penalty of the law that I have read and understand the terms and conditions of the General Permit for the Discharge of Stormwater and Dewatering Wastewaters from Construction Activities. I understand that as a contractor or subcontractor at the site, I am authorized by this general permit, and must comply with the terms and conditions of this general permit, including, but not limited to, the requirements of the Stormwater Pollution Control Plan prepared for the site."

Hazardous waste premium \$3.00 per hour over classified rate.

CT1

Crane with boom, including jib, 150 feet - \$1.50 extra.  
Crane with boom, including jib, 200 feet - \$2.50 extra.  
Crane with boom, including jib, 250 feet - \$5.00 extra.  
Crane with boom, including jib, 300 feet - \$7.00 extra.  
Crane with boom, including jib, 400 feet - \$10.00 extra

All Cranes: When crane operator is operating equipment that requires a fully licensed crane operator to operate he receives an extra \$1.00 premium in addition to the hourly wage rate and benefit contributions:

- 1) Crane handling or erecting structural steel or stone, hoisting engineer(2 drums or over)
- 2) Cranes(100 ton rated capacity and over) Bauer Drill/Caisson
- 3) Cranes(under 100 ton rated capacity)

a. PAID HOLIDAYS: New Year's Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day, provided the employee works 3 days during the week in which the holiday falls, if scheduled, and if scheduled, the working day before and the working day after the holiday.

#### POWER EQUIPMENT OPERATORS CLASSIFICATIONS

GROUP 1: Crane handling or erecting structural steel or stone, hoisting engineer (2 drums or over), front end loader (7 cubic yards or over), work boat 26 ft. and over.

GROUP 2: Cranes (100 ton capacity & over), Excavator over 2 cubic yards, piledriver (\$3.00 premium when operator controls hammer), Bauer Drill/Caisson

GROUP 3: Excavator, cranes (under 100 ton rated capacity), gradall, master mechanic, hoisting engineer (all types of equipment where a drum and cable are used to hoist or drag material regardless of motive power or operation) Rubber Tire Excavator (drott 1085 or similar); Grader Operator; Bulldozer Fine Grade (slopes, shaping, laser or GPS, etc.)

GROUP 4: Trenching machines, lighter derrick, concrete finishing machine, CMI machine or similar, Koehring Loader (skooter).

GROUP 5: Specialty railroad equipment, asphalt spreader, asphalt reclaiming machine, line grider, concrete pumps, drills with self contained power units, boring machine, post hole digger, auger, pounder, well digger, milling machine (over 24' mandrel), side boom, combination hoe and loader, directional driller

GROUP 6: Front end loader (3 cu. yds. up to 7 cu. yards), bulldozer (Rough grade dozer) .

GROUP 7: Asphalt roller, concrete saws and cutters (ride on types), Vermeer concrete cutter, stump grinder, scraper, snooper, skidder, milling machine (24" and under Mandrel).

GROUP 8: Mechanic, grease truck operator, hydoblaster, barrier mover, power stone spreader, welder, work boat under 26 ft. transfer machine.

GROUP 9: Front end loader (under 3 cubic yards), skid steer

CT1  
 loader (regardless of attachments), bobcat or similar, forklift, power chipper, landscape equipment (including hydroseeder).

GROUP 10: Vibratory hammer,ice machine, diesel & air, hammer, etc.

GROUP 11: Conveyor, earth roller, power pavement breaker (whiphammer), robot demolition equipment.

GROUP 12: wellpoint operator.

GROUP 13: Portable asphalt plant operator, portable concrete plant operator, portable crusher plant operator.

GROUP 14: Compressor battery operator.

GROUP 15: Power Safety boat, Vacuum truck, Zim mixer, Sweeper; (Minimum for any job requiring a CDL license) .

GROUP 16: Elevator operator, tow motor operator (solid tire no rough terrain).

GROUP 17: Generator operator, compressor operator, pump operator,welding machine operator; Heater operator.

GROUP 18: Maintenance engineer.

Hazardous waste removal work receives additional \$1.25 per hour.

a. PAID HOLIDAYS: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Day and Good Friday, provided the employee has at least 31 calendar days of service and works the last scheduled day before and the first scheduled day after the holiday, unless excused.

-----  
WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

=====  
Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is union or non-union.

#### Union Identifiers

An identifier enclosed in dotted lines beginning with characters other than "SU" denotes that the union classification and rate have found to be prevailing for that classification. Example: PLUM0198-005 07/01/2011. The first four letters, PLUM, indicate the international union and the four-digit number, 0198, that follows indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2011, following these characters is the effective date of the most current negotiated rate/collective bargaining agreement which would be July 1, 2011 in the above example.

Union prevailing wage rates will be updated to reflect any changes in the collective bargaining agreements governing the rates.

0000/9999: weighted union wage rates will be published annually each January.

#### Non-Union Identifiers

Classifications listed under an "SU" identifier were derived from survey data by computing average rates and are not union rates; however, the data used in computing these rates may include both union and non-union data. Example: SULA2004-007 5/13/2010. SU indicates the rates are not union majority rates, LA indicates the State of Louisiana; 2004 is the year of the survey; and 007 is an internal number used in producing the wage determination. A 1993 or later date, 5/13/2010, indicates the classifications and rates under that identifier were issued as a General Wage Determination on that date.

Survey wage rates will remain in effect and will not change until a new survey is conducted.

---

#### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

\* an existing published wage determination

CT1

- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

hour.

a. PAID HOLIDAYS: New Year's Day, Memorial Day, Independence  
Day, Labor Day, Thanksgiving Day, Christmas Day and Good  
Friday, provided the employee has at least 31 calendar days  
of service and works the last scheduled day before and the  
first scheduled day after the holiday, unless excused.

-----  
WELDERS - Receive rate prescribed for craft performing  
operation to which welding is incidental.

=====  
Unlisted classifications needed for work not included within  
the scope of the classifications listed may be added after  
award only as provided in the labor standards contract clauses  
(29CFR 5.5 (a) (1) (ii)).

-----  
The body of each wage determination lists the classification  
and wage rates that have been found to be prevailing for the  
cited type(s) of construction in the area covered by the wage  
determination. The classifications are listed in alphabetical  
order of "identifiers" that indicate whether the particular  
rate is union or non-union.

#### Union Identifiers

An identifier enclosed in dotted lines beginning with  
characters other than "SU" denotes that the union  
classification and rate have found to be prevailing for that  
classification. Example: PLUM0198-005 07/01/2011. The first  
four letters , PLUM, indicate the international union and the  
four-digit number, 0198, that follows indicates the local union  
number or district council number where applicable , i.e.,  
Plumbers Local 0198. The next number, 005 in the example, is  
an internal number used in processing the wage determination.  
The date, 07/01/2011, following these characters is the  
effective date of the most current negotiated rate/collective  
bargaining agreement which would be July 1, 2011 in the above  
example.

Union prevailing wage rates will be updated to reflect any  
changes in the collective bargaining agreements governing the  
rates.

0000/9999: weighted union wage rates will be published annually  
each January.

### Non-Union Identifiers

Classifications listed under an "SU" identifier were derived from survey data by computing average rates and are not union rates; however, the data used in computing these rates may include both union and non-union data. Example: SULA2004-007 5/13/2010. SU indicates the rates are not union majority rates, LA indicates the State of Louisiana; 2004 is the year of the survey; and 007 is an internal number used in producing the wage determination. A 1993 or later date, 5/13/2010, indicates the classifications and rates under that identifier were issued as a General Wage Determination on that date.

Survey wage rates will remain in effect and will not change until a new survey is conducted.

---

### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage

CT2

payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

- 2) Cranes(100 ton rated capacity and over) Bauer Drill/Caisson
- 3) Cranes(under 100 ton rated capacity)

a. PAID HOLIDAYS: New Year's Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day, provided the employee works 3 days during the week in which the holiday falls, if scheduled, and if scheduled, the working day before and the working day after the holiday.

#### POWER EQUIPMENT OPERATORS CLASSIFICATIONS

GROUP 1: Crane Handling or Erecting Structural Steel or tone; Hoisting Engineer (2 drums or over); Front End Loader (7 cubic yards or over) Work Boat 26 ft. & over.

GROUP 2: Cranes (100 ton rated capacity and over); Excavator over 2 cubic yards; Piledriver (\$3.00 premium when operator controls hammer); Bauer Drill/Caisson

GROUP 3: Excavator; Cranes (under 100 ton rated capacity), Gradall; Master Mechanic; Hoisting Engineer (all types of equipment where a drum and cable are used to hoist or drag material regardless of motive power of operation), Rubber tire Excavator (Drott-1085 or similar); Grader Operator; Bulldozer Fine Grade (slopes. shaping, laser or GPS, etc.)

GROUP 4: Trenching machines; Lighter Derrick; Concrete Finishing Machine, cmi Machine or Similar; Koehring Loader Skooper).

GROUP 5: Specialty Railroad Equipment; Asphalt Spreader; Asphalt Reclaiming achine; Line Grinder; Concrete Pumps; Drills with Self Contained Power Units; Boring Machine; Post Hole Digger; Auger; Pounder; Well Digger; Milling Machine (over 24" Mandrell); Side Boom; Combination Hoe and Loader; Directional Driller.

GROUP 6: Front End Loader (3 cu. yds. up to 7 cubic yards); Bulldozer (Rough grade dozer).

GROUP 7: Asphalt Roller; Concrete Saws and Cutters (Ride on Types); Vermeer Concrete Cutter; Stump Grinder; Scraper; Snooper; Skidder; Milling Machine (24" and Under Mandrel).

GROUP 8: Mechanic; Grease Truck Operator; Hydroblaster; Barrier Mover; Power Stone Spreader; Welder; Work Boat Under 26 ft.; Transfer Machine.

GROUP 9: Front End Loader (under 3 cubic yards); Skid Steer Loader (regardless of attachments); (Bobcat or similar); Fork Lift; Power Chipper; Landscape Equipment (including Hydroseeder).

GROUP 10: Vibratory Hammer, Ice Machine, Diesel and Air Hammer, etc.

GROUP 11: Conveyor; Earth Roller; Power Pavement Breaker (Whiphammer); Robot Demolition Equipment.

CT3

GROUP 12: Wellpoint Operator.

GROUP 13: Portable Asphalt Plant Operator; Portable Concrete Plant Operator; Portable Crusher Plant Operator.

GROUP 14: Compressor Battery Operator.

GROUP 15: Power Safety Boat; Vacuum Truck; Zim Mixer; Sweeper; (Minimum for any job requiring a CDL License)

GROUP 16: Elevator Operator; Tow Motor Operator (Solid Tire No Rough Terrain).

GROUP 17: Generator Operator; Compressor Operator; Pump Operator; Welding Machine Operator; Heater operator.

GROUP 18: Maintenance Engineer.

---

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

---

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

---

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular

rate is union or non-union.

#### Union Identifiers

An identifier enclosed in dotted lines beginning with characters other than "SU" denotes that the union classification and rate have found to be prevailing for that classification. Example: PLUM0198-005 07/01/2011. The first four letters, PLUM, indicate the international union and the four-digit number, 0198, that follows indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2011, following these characters is the effective date of the most current negotiated rate/collective bargaining agreement which would be July 1, 2011 in the above example.

Union prevailing wage rates will be updated to reflect any changes in the collective bargaining agreements governing the rates.

0000/9999: weighted union wage rates will be published annually each January.

#### Non-Union Identifiers

Classifications listed under an "SU" identifier were derived from survey data by computing average rates and are not union rates; however, the data used in computing these rates may include both union and non-union data. Example: SULA2004-007 5/13/2010. SU indicates the rates are not union majority rates, LA indicates the State of Louisiana; 2004 is the year of the survey; and 007 is an internal number used in producing the wage determination. A 1993 or later date, 5/13/2010, indicates the classifications and rates under that identifier were issued as a General Wage Determination on that date.

Survey wage rates will remain in effect and will not change until a new survey is conducted.

---

#### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial

CT3

contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

-----  
The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is union or non-union.

#### Union Identifiers

An identifier enclosed in dotted lines beginning with characters other than "SU" denotes that the union classification and rate have found to be prevailing for that classification. Example: PLUM0198-005 07/01/2011. The first four letters, PLUM, indicate the international union and the four-digit number, 0198, that follows indicates the local union number or district council number where applicable, i.e.,

CT13

Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2011, following these characters is the effective date of the most current negotiated rate/collective bargaining agreement which would be July 1, 2011 in the above example.

Union prevailing wage rates will be updated to reflect any changes in the collective bargaining agreements governing the rates.

0000/9999: weighted union wage rates will be published annually each January.

#### Non-Union Identifiers

Classifications listed under an "SU" identifier were derived from survey data by computing average rates and are not union rates; however, the data used in computing these rates may include both union and non-union data. Example: SULA2004-007 5/13/2010. SU indicates the rates are not union majority rates, LA indicates the State of Louisiana; 2004 is the year of the survey; and 007 is an internal number used in producing the wage determination. A 1993 or later date, 5/13/2010, indicates the classifications and rates under that identifier were issued as a General Wage Determination on that date.

Survey wage rates will remain in effect and will not change until a new survey is conducted.

---

#### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

CT13

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====  
END OF GENERAL DECISION

General Decision Number: CT140014 07/11/2014 CT14

Superseded General Decision Number: CT20130014

=====

the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

---

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is union or non-union.

#### Union Identifiers

An identifier enclosed in dotted lines beginning with characters other than "SU" denotes that the union classification and rate have found to be prevailing for that classification. Example: PLUM0198-005 07/01/2011. The first four letters, PLUM, indicate the international union and the four-digit number, 0198, that follows indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2011, following these characters is the effective date of the most current negotiated rate/collective bargaining agreement which would be July 1, 2011 in the above example.

Union prevailing wage rates will be updated to reflect any changes in the collective bargaining agreements governing the rates.

0000/9999: weighted union wage rates will be published annually each January.

#### Non-Union Identifiers

Classifications listed under an "SU" identifier were derived from survey data by computing average rates and are not union rates; however, the data used in computing these rates may include both union and non-union data. Example: SULA2004-007 5/13/2010. SU indicates the rates are not union majority rates, LA indicates the State of Louisiana; 2004 is the year of the survey; and 007 is an internal number used in producing the wage determination. A 1993 or later date, 5/13/2010, indicates the classifications and rates under that identifier were issued as a General Wage Determination on that date.

Survey wage rates will remain in effect and will not change until a new survey is conducted.

---

#### WAGE DETERMINATION APPEALS PROCESS

- 1.) Has there been an initial decision in the matter? This can

be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

END OF GENERAL DECISION

General Decision Number: CT140015 07/11/2014 CT15

Superseded General Decision Number: CT20130015

State: Connecticut

Construction Type: Heavy

Counties: Middlesex and Tolland Counties in Connecticut.

Hazardous waste premium \$3.00 per hour over classified rate.

Crane with boom, including jib, 150 feet - \$1.50 extra.  
 Crane with boom, including jib, 200 feet - \$2.50 extra.  
 Crane with boom, including jib, 250 feet - \$5.00 extra.  
 Crane with boom, including jib, 300 feet - \$7.00 extra.  
 Crane with boom, including jib, 400 feet - \$10.00 extra

All Cranes: When crane operator is operating equipment that  
 requires a fully licensed crane operator to operate he  
 receives an extra \$1.00 premium in addition to the hourly  
 wage rate and benefit contributions:

- 1) Crane handling or erecting structural steel or stone,  
hoisting engineer(2 drums or over)
- 2) Cranes(100 ton rated capacity and over) Bauer Drill/Caisson
- 3) Cranes(under 100 ton rated capacity)

a. PAID HOLIDAYS: New Year's Day, Good Friday, Memorial Day,  
 Independence Day, Labor Day, Thanksgiving Day and Christmas

Day, provided the employee works 3 days during the week in which the holiday falls, if scheduled, and if scheduled, the working day before and the working day after the holiday.

#### POWER EQUIPMENT OPERATORS CLASSIFICATIONS

GROUP 1: Crane handling or erecting structural steel or stone, hoisting engineer (2 drums or over), front end loader (7 cubic yards or over), work boat 26 ft. and over.

GROUP 2: Cranes (100 ton capacity & over), Excavator over 2 cubic yards, piledriver (\$3.00 premium when operator controls hammer), Bauer Drill/Caisson

GROUP 3: Excavator, cranes (under 100 ton rated capacity), gradall, master mechanic, hoisting engineer (all types of equipment where a drum and cable are used to hoist or drag material regardless of motive power or operation) Rubber Tire Excavator (drott 1085 or similar); Grader Operator; Bulldozer Fine Grade (slopes, shaping, laser or GPS, etc.)

GROUP 4: Trenching machines, lighter derrick, concrete finishing machine, CMI machine or similar, Koehring Loader (skooter).

GROUP 5: Specialty railroad equipment, asphalt spreader, asphalt reclaiming machine, line grider, concrete pumps, drills with self contained power units, boring machine, post hole digger, auger, pounder, well digger, milling machine (over 24' mandrel), side boom, combination hoe and loader, directional driller

GROUP 6: Front end loader (3 cu. yds. up to 7 cu. yards), bulldozer (Rough grade dozer) .

GROUP 7: Asphalt roller, concrete saws and cutters (ride on types), Vermeer concrete cutter, stump grinder, scraper, snooper, skidder, milling machine (24" and under Mandrel).

GROUP 8: Mechanic, grease truck operator, hydoblaster, barrier mover, power stone spreader, welder, work boat under 26 ft. transfer machine.

GROUP 9: Front end loader (under 3 cubic yards), skid steer loader (regardless of attachments), bobcat or similar, forklift, power chipper, landscape equipment (including hydroseeder).

GROUP 10: Vibratory hammer, ice machine, diesel & air, hammer, etc.

GROUP 11: Conveyor, earth roller, power pavement breaker (whiphammer), robot demolition equipment.

GROUP 12: wellpoint operator.

GROUP 13: Portable asphalt plant operator, portable concrete plant operator, portable crusher plant operator.

GROUP 14: Compressor battery operator.

GROUP 15: Power Safety boat, Vacuum truck, Zim mixer,

CT15

Sweeper; (Minimum for any job requiring a CDL license) .

GROUP 16: Elevator operator, tow motor operator (solid tire no rough terrain).

GROUP 17: Generator operator, compressor operator, pump operator, welding machine operator; Heater operator.

GROUP 18: Maintenance engineer.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is union or non-union.

#### Union Identifiers

An identifier enclosed in dotted lines beginning with characters other than "SU" denotes that the union classification and rate have found to be prevailing for that classification. Example: PLUM0198-005 07/01/2011. The first four letters, PLUM, indicate the international union and the four-digit number, 0198, that follows indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2011, following these characters is the effective date of the most current negotiated rate/collective bargaining agreement which would be July 1, 2011 in the above example.

Union prevailing wage rates will be updated to reflect any changes in the collective bargaining agreements governing the rates.

0000/9999: weighted union wage rates will be published annually each January.

#### Non-Union Identifiers

Classifications listed under an "SU" identifier were derived from survey data by computing average rates and are not union rates; however, the data used in computing these rates may include both union and non-union data. Example: SULA2004-007 5/13/2010. SU indicates the rates are not union majority rates, LA indicates the State of Louisiana; 2004 is the year of the survey; and 007 is an internal number used in producing the wage determination. A 1993 or later date, 5/13/2010, indicates the classifications and rates under that identifier were issued as a General Wage Determination on that date.

Survey wage rates will remain in effect and will not change until a new survey is conducted.

---

#### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on

- a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

 Crane with boom, including jib, 300 feet - \$7.00 extra.  
 Crane with boom, including jib, 400 feet - \$10.00 extra

All Cranes: When crane operator is operating equipment that requires a fully licensed crane operator to operate he receives an extra \$1.00 premium in addition to the hourly wage rate and benefit contributions:

1) Crane handling or erecting structural steel or stone, hoisting engineer(2 drums or over)

- 2) Cranes(100 ton rated capacity and over) Bauer Drill/Caisson
- 3) Cranes(under 100 ton rated capacity)

a. PAID HOLIDAYS: New Year's Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day, provided the employee works 3 days during the week in which the holiday falls, if scheduled, and if scheduled, the working day before and the working day after the holiday.

#### POWER EQUIPMENT OPERATORS CLASSIFICATIONS

GROUP 1: Crane handling or erecting structural steel or stone, hoisting engineer (2 drums or over), front end loader (7 cubic yards or over), work boat 26 ft. and over.

GROUP 2: Cranes (100 ton capacity & over), Excavator over 2 cubic yards, piledriver (\$3.00 premium when operator controls hammer), Bauer Drill/Caisson

GROUP 3: Excavator, cranes (under 100 ton rated capacity), gradall, master mechanic, hoisting engineer (all types of equipment where a drum and cable are used to hoist or drag material regardless of motive power or operation) Rubber Tire Excavator (drott 1085 or similar); Grader Operator; Bulldozer Fine Grade (slopes, shaping, laser or GPS, etc.)

GROUP 4: Trenching machines, lighter derrick, concrete finishing machine, CMI machine or similar, Koehring Loader (scooper).

GROUP 5: Specialty railroad equipment, asphalt spreader, asphalt reclaiming machine, line grider, concrete pumps, drills with self contained power units, boring machine, post hole digger, auger, pounder, well digger, milling machine (over 24' mandrel), side boom, combination hoe and loader, directional driller

GROUP 6: Front end loader (3 cu. yds. up to 7 cu. yards), bulldozer (Rough grade dozer) .

GROUP 7: Asphalt roller, concrete saws and cutters (ride on types), Vermeer concrete cutter, stump grinder, scraper, snooper, skidder, milling machine (24" and under Mandrel).

GROUP 8: Mechanic, grease truck operator, hydoblaster, barrier mover, power stone spreader, welder, work boat under 26 ft. transfer machine.

GROUP 9: Front end loader (under 3 cubic yards), skid steer loader (regardless of attachments), bobcat or similar, forklift, power chipper, landscape equipment (including hydroseeder).

GROUP 10: Vibratory hammer, ice machine, diesel & air, hammer, etc.

GROUP 11: Conveyor, earth roller, power pavement breaker (whiphammer), robot demolition equipment.

GROUP 12: wellpoint operator.

GROUP 13: Portable asphalt plant operator, portable concrete

CT16

plant operator, portable crusher plant operator.

GROUP 14: Compressor battery operator.

GROUP 15: Power Safety boat, Vacuum truck, Zim mixer, Sweeper; (Minimum for any job requiring a CDL license) .

GROUP 16: Elevator operator, tow motor operator (solid tire no rough terrain).

GROUP 17: Generator operator, compressor operator, pump operator, welding machine operator; Heater operator.

GROUP 18: Maintenance engineer.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

## CT16

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is union or non-union.

### Union Identifiers

An identifier enclosed in dotted lines beginning with characters other than "SU" denotes that the union classification and rate have been found to be prevailing for that classification. Example: PLUM0198-005 07/01/2011. The first four letters, PLUM, indicate the international union and the four-digit number, 0198, that follows indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2011, following these characters is the effective date of the most current negotiated rate/collective bargaining agreement which would be July 1, 2011 in the above example.

Union prevailing wage rates will be updated to reflect any changes in the collective bargaining agreements governing the rates.

0000/9999: weighted union wage rates will be published annually each January.

### Non-Union Identifiers

Classifications listed under an "SU" identifier were derived from survey data by computing average rates and are not union rates; however, the data used in computing these rates may include both union and non-union data. Example: SULA2004-007 5/13/2010. SU indicates the rates are not union majority rates, LA indicates the State of Louisiana; 2004 is the year of the survey; and 007 is an internal number used in producing the wage determination. A 1993 or later date, 5/13/2010, indicates the classifications and rates under that identifier were issued as a General Wage Determination on that date.

Survey wage rates will remain in effect and will not change until a new survey is conducted.

---

### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====  
END OF GENERAL DECISION

General Decision Number: CT140017 07/11/2014 CT17

Superseded General Decision Number: CT20130017

State: Connecticut

Construction Type: Heavy

County: New London County in Connecticut.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

-----  
The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is union or non-union.

#### Union Identifiers

An identifier enclosed in dotted lines beginning with characters other than "SU" denotes that the union classification and rate have found to be prevailing for that

classification. Example: PLUM0198-005 07/01/2011. The first four letters, PLUM, indicate the international union and the four-digit number, 0198, that follows indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2011, following these characters is the effective date of the most current negotiated rate/collective bargaining agreement which would be July 1, 2011 in the above example.

Union prevailing wage rates will be updated to reflect any changes in the collective bargaining agreements governing the rates.

0000/9999: weighted union wage rates will be published annually each January.

#### Non-Union Identifiers

Classifications listed under an "SU" identifier were derived from survey data by computing average rates and are not union rates; however, the data used in computing these rates may include both union and non-union data. Example: SULA2004-007 5/13/2010. SU indicates the rates are not union majority rates, LA indicates the State of Louisiana; 2004 is the year of the survey; and 007 is an internal number used in producing the wage determination. A 1993 or later date, 5/13/2010, indicates the classifications and rates under that identifier were issued as a General Wage Determination on that date.

Survey wage rates will remain in effect and will not change until a new survey is conducted.

---

#### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Page 8

Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

END OF GENERAL DECISION

General Decision Number: CT140026 10/17/2014 CT26

Superseded General Decision Number: CT20130026

State: Connecticut

Construction Type: Heavy

Counties: Litchfield and Windham Counties in Connecticut.

a. PAID HOLIDAYS: New Year's Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day, provided the employee works 3 days during the week in which the holiday falls, if scheduled, and if scheduled, the working day before and the working day after the holiday.

POWER EQUIPMENT OPERATORS CLASSIFICATIONS

GROUP 1: Crane handling or erecting structural steel or stone, hoisting engineer (2 drums or over), front end loader (7 cubic yards or over), work boat 26 ft. and over.

GROUP 2: Cranes (100 ton capacity & over), Excavator over 2 cubic yards, piledriver (\$3.00 premium when operator controls hammer), Bauer Drill/Caisson

GROUP 3: Excavator, cranes (under 100 ton rated capacity), gradall, master mechanic, hoisting engineer (all types of equipment where a drum and cable are used to hoist or drag material regardless of motive power or operation) Rubber Tire Excavator (drott 1085 or similar); Grader Operator; Bulldozer Fine Grade (slopes, shaping, laser or GPS, etc.)

GROUP 4: Trenching machines, lighter derrick, concrete finishing machine, CMI machine or similar, Koehring Loader (scooper).

GROUP 5: Specialty railroad equipment, asphalt spreader, asphalt reclaiming machine, line grider, concrete pumps, drills with self contained power units, boring machine, post hole digger, auger, pounder, well digger, milling machine (over 24' mandrel), side boom, combination hoe and loader, directional driller

GROUP 6: Front end loader (3 cu. yds. up to 7 cu. yards), bulldozer (Rough grade dozer) .

GROUP 7: Asphalt roller, concrete saws and cutters (ride on types), Vermeer concrete cutter, stump grinder, scraper, snooper, skidder, milling machine (24" and under Mandrel).

GROUP 8: Mechanic, grease truck operator, hydoblaster, barrier mover, power stone spreader, welder, work boat under 26 ft. transfer machine.

GROUP 9: Front end loader (under 3 cubic yards), skid steer loader (regardless of attachments), bobcat or similar, forklift, power chipper, landscape equipment (including hydroseeder).

GROUP 10: Vibratory hammer, ice machine, diesel & air, hammer, etc.

GROUP 11: Conveyor, earth roller, power pavement breaker (whiphammer), robot demolition equipment.

GROUP 12: Wellpoint operator.

GROUP 13: Portable asphalt plant operator, portable concrete plant operator, portable crusher plant operator.

GROUP 14: Compressor battery operator.

CT26

GROUP 15: Power Safety boat, Vacuum truck, Zim mixer, Sweeper; (Minimum for any job requiring a CDL license) .

GROUP 16: Elevator operator, tow motor operator (solid tire no rough terrain).

GROUP 17: Generator operator, compressor operator, pump operator, welding machine operator; Heater operator.

GROUP 18: Maintenance engineer.

-----

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

-----

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular

rate is union or non-union.

### Union Identifiers

An identifier enclosed in dotted lines beginning with characters other than "SU" denotes that the union classification and rate have found to be prevailing for that classification. Example: PLUM0198-005 07/01/2011. The first four letters, PLUM, indicate the international union and the four-digit number, 0198, that follows indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2011, following these characters is the effective date of the most current negotiated rate/collective bargaining agreement which would be July 1, 2011 in the above example.

Union prevailing wage rates will be updated to reflect any changes in the collective bargaining agreements governing the rates.

0000/9999: weighted union wage rates will be published annually each January.

### Non-Union Identifiers

Classifications listed under an "SU" identifier were derived from survey data by computing average rates and are not union rates; however, the data used in computing these rates may include both union and non-union data. Example: SULA2004-007 5/13/2010. SU indicates the rates are not union majority rates, LA indicates the State of Louisiana; 2004 is the year of the survey; and 007 is an internal number used in producing the wage determination. A 1993 or later date, 5/13/2010, indicates the classifications and rates under that identifier were issued as a General Wage Determination on that date.

Survey wage rates will remain in effect and will not change until a new survey is conducted.

---

### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial

contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====  
END OF GENERAL DECISION
